

Atlanta Technical College

Local Board of Directors

The Atlanta Technical College Local Board of Directors is comprised on business and community leaders and serves to ensure that the needs of the citizenry, business, and industry are met in the College's service area to the highest possible degree and in the most cost effective and efficient manner, within the guidelines of the policies and goals and objectives of the State Board of the Technical College System of Georgia. One of the primary responsibilities of the local Board of Directors is to communicate and to maintain awareness of local industry and community needs for programs and services to be provided by Atlanta Technical College.
